

MULTIPLICATION STRATEGIES

1. Draw a picture.

$$4 \times 3 = 12$$

2. Use repeated addition.

$$12 \times 6 = 72$$

$$12 + 12 + 12 + 12 + 12 + 12 = 72$$

3. Draw an array.

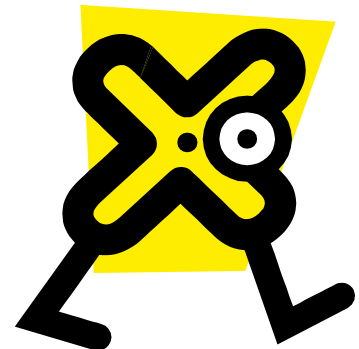

$$6 \times 3 = 18$$

4. Skip Count.

$$5 \times 8 = 40$$

5, 10, 15, 20, 25, 30, 35, 40

5. Use our times tables tricks.

$$12 \times 4 = 48$$

Double 12 and that makes 24, Double 24 to get 48!
