

## Virtual Art Lesson #3

NC Essential Standard (2.CX.1.5): Students can understand that artists use natural resources in creating art.

1. Watch the YouTube video about English artist, Andy Goldsworthy to learn about the sculptural works he makes out of natural materials. Link: <https://youtu.be/vWcebVXNrDw>
2. On a sunny day, **GO OUTSIDE!** Collect natural objects such as rocks, acorns, pinecones, leaves, sticks, weed flowers (check with a grown up before picking any flowers), etc.
3. Arrange your natural collection any way you like to make a pleasing work of art. You may want to arrange your art on a blank sheet of paper so it will stand out!
4. Use your iPad to **take a picture** of your art and have a parent or older sibling email it to Mrs. Harris: [tricia.harris@bcsemail.org](mailto:tricia.harris@bcsemail.org)

**HAVE FUN!**
